FAQ

Q: How does Prime Capital assess applications?

A: We take a hybrid approach combining smart tech with human expertise. Automation speeds up approvals, while our credit team adds the judgment and flexibility.

Q: Is specialist lending only for the credit impaired?

A: Not at all. Only a small portion of our customers have credit issues. Most are business owners with irregular income, strong assets or fast growth who need more flexibility than the banks can offer.

Q: What is unlimited debt consolidation?

A: There's no cap on the number of business debts that can be rolled into a single loan including ATO debts as long as it fits within the approved lending limit.

Q: What is unlimited credit impairment?

A: It means there's no fixed limit on the level of credit impairment we can consider. If the business has recovered and can demonstrate ongoing strength, we'll take a practical view.

Q: How do I get accredited with Prime Capital?

A: Visit primecapital.com/broker to start your accreditation process. Our website gives you access to resources, tools, product information and scenario support.
