Is specialist lending only for the credit impaired?

No, in fact less than 10% of our valued customers have some kind of credit blemish. The most common reason a customer is looking for a Prime Capital solution is due to irregular income from being self-employed or a business reinvesting cash flow as they grow.

What is the key difference with Prime Capital's approach to assessing applications?

Prime Capital undertakes a personalised approach to assessing loans by manually assessing every application. We examine an applicant's individual circumstances because no two customers are the same!

How do I get accredited with Prime Capital?

You can simply go to primecapital.com/broker to get started on your accreditation process. With a dedicated broker portal for you, start your journey with Prime Capital for your gateway to fast, simple loans.

What is unlimited debt consolidation?

Prime Capital will consider consolidating an unlimited number of business debts (including ATO debts). There is no limit to value of debts up to the customers approved lending limit.

What is unlimited credit impairment?

We will consider unlimited impairment provided the client has demonstrated they have overcome the credit event that led the impairment to occur.
